PROJECT DESCRIPTION

Cluster Group Affiliation— Women

Congressional Districts Served— Ohio 10th

Purpose, Goals and Objectives—The overall purpose of this project is to improve the health and social functioning levels of members of the target population. The goals of this project are to expand residential treatment capacity to 16 women and 48 children, expand the number of outpatient treatment slots by 50, and to provide treatment access to homeless addicted women.

Target Population/Geographic Service Area—The target population of this Targeted Capacity Expansion project is pregnant, addicted women and their children who reside in Cleveland, Ohio (Cuyahoga County).

Service Providers—Services will be provided by the East Side Catholic Shelter, Inc., under contract to the Ohio Department of Alcohol and Drug Addiction.

Services Provided—The project will provide gender appropriate and culturally sensitive residential services, including assessment, treatment, prevention, and rehabilitation services.. Also, clients will receive case management services and referral to wraparound services as needed.

Desired Project Outputs—The expected outcome of this project is capacity expansion by 16 residential beds for women and 48 slots for children.

EVALUATION

Strategy and Design—The evaluation will address both process and outcomes, using a pre/post design.

Evaluation Goals/Desired Results—One specific target of the evaluation is to determine the effect of the Africentric/Womanist treatment model training provided to clinical staff.

Instruments and Data Management—In addition to data from clinical assessment instruments, evaluators will use the Belief Systems and Analysis Scale, Belief and Behavior Scale and the Atenback Child Behavior Checklist to gather data from both clients and program staff.
